The Sk'ad'a Principles

hlGed sda sGwaansang
"closely related" or "working
together" by Robert Davidson

- Learning emerges from strong relationships.
- Learning emerges from authentic experiences.
- Learning emerges from curiosity.
- Learning occurs through observation.
- Learning occurs through contribution.
- Learning occurs through recognizing and encouraging strengths.
- Learning honours the power of the mind.
- Learning honours history and story.
- Learning honours aspects of spirituality and protocol.
